

Vending Redefined™

Hot & Cold Vending Systems

USI Upgrade Kits Now Available!

Turn Your Refrigerated Machine into a
Hot & Cold Vending Machine &
Increase Revenue & Profit!

Includes:

- EatWave's patented microwave cooking unit with Precision Cooking Technology™
- Microwave base & food glides
- VENDcheck™ control board & related wiring (replaces current control board & wiring)

Available on All U-Select-It® Alpine Series Models
with Blue Back-Lit Keypads

Advantages:

- Vend **hot** food from your refrigerated vending machine - offer customers more options
- Increase revenue at each machine
- Reduce commission rates by adding **hot** food (lower rates than drink & snack)
- Keep existing customers or use to extend vending contract term
- Gain new business - locations that require internal, controlled microwave:
 - Hospitals
 - Hotels & Motels
 - Military Bases
 - Office Buildings, Factories & More
- Internal microwave cooks food quicker & more precisely than a standard microwave
- Internal microwave is safer and more sanitary than an external microwave
- VENDcheck™ controller allows you to access upgraded machines remotely, online
- 2 year warranty
